

HEY, BUILDER MEMBER, HAVE YOU BEEN LEAVING MONEY ON THE TABLE?

As a builder member of the Wisconsin Builders Association, did you know that you are invited to take full advantage of the WBA Member Rebate Program? This simple program gives you cold, hard cash back on purchases you already make for your business—often enough to cover your dues & then some!

NO GIMMICKS.

1. Go online to www.hbarebates.com/wba.html.
2. Register (so they know where to send check) & view quarterly deadlines to know when to claim for past completed homes & remodeling projects!
3. Fill out a quick & easy claim form—there's a variety of ways to do this, support available, and **NO** receipts are required.
4. After processing, receive rebate check in mail!

What's in it for the manufacturers?

Manufacturers recognize that the small to mid-size builder is the largest segment of the industry. The Member Rebate Program combines these builders across the country to negotiate the same rebates that a "Top-5" builder would receive.

Do I need to save my receipts?

There are no receipts necessary to process your rebate claim. Instead of receipts, we use the manufacturers' salespeople in your area to confirm that their products were used.

Must I use all manufacturers to qualify?

No. However, the more you use, the bigger your check!

Just some of the current 50+ participating manufacturers, quarterly updates

How can I find out the particular rebate amounts being offered by participating manufacturers?

Rebate amounts cannot be disclosed to the public. However, you can contact HBA Rebates (who hosts the WBA Member Rebate Program) at 866-849-8400 for an average based on what you are using.

Why are addresses of completed projects needed?

This information will NEVER be sold. It's just needed due to federal law, in the event that a manufacturer is audited.

\$137,790 has been paid to participating WBA members so far this quarter, averaging \$1,157/member!
